Course description

This course provides a general introduction to the study of basic psychological processes, and will give students basic knowledge of the many aspects of psychology, especially biological and cognitive aspects of psychology. The subjects discussed include:

- Psychology as a biological science
- The diverse sub-fields of psychology focusing on basic processes
- Understanding current psychological theories focusing on basic processes
- Basic methodologies and terminology used in different areas of psychology

Lectures are intended to highlight and extend, rather than summarize, assigned text readings. You will benefit most from lectures if you read the assigned material *prior* to the corresponding lecture. Class outlines will be available on the Department of Psychology website:

<http://www.psych.ucalgary.ca/students/courses/> and on the course Blackboard site.

These outlines are provided to assist you in organizing and understanding the material and are not a substitute for class attendance.

Prerequisites

Psychology 200 – Principles of Psychology I

Required Text: Comer, Ronald; Gould, Elizabeth; Ogden, Nancy and Boyes, Mike (2012) **Psychology Around Us: Canadian Edition** Wiley Canada, Toronto. *Text is available in the University Bookstore*

There are online resources available for this textbook.

Blackboard for PSYC 201

There is an area on the general campus Blackboard site set aside for this course. Blackboard can be accessed via this link; <http://blackboard.ucalgary.ca/webapps/login> **THIS SITE SHOULD BE YOUR FIRST STOP FOR QUESTIONS ABOUT COURSE TOPICS, DATES, ETC.**

Evaluation

Three term tests and a final exam are scheduled. All are non-cumulative, multiple-choice tests based on **both** textbook and lecture material (including films and other demonstrations). Not all test material will be covered in class, and some test material covered in class will not be covered in the text, so regular attendance is important for success in this course. Note that you are responsible for **all** assigned readings from the text even if the specific content has not been covered in lectures. Many test questions will involve critical thinking, a skill you will be given practice developing in class, so again it's to your advantage to come to class. The use of class notes or the text book, computers or calculators is prohibited during the tests in this course.

Your **course grade** will be computed as **the average of your four quiz scores (converted to a score out of 96) PLUS your Experiential Learning score (4%) (see section below)**. If you miss a quiz, a make-up quiz may be arranged but you may be required to supply me with Physician/Counselor Statement(s) indicating the basis for missed test as soon as possible after the missed test.

Course Credits for Research Participation

Experiential-Learning/Article-Evaluation Course Component (4% of final grade)

This experiential-learning/article-evaluation component provides enriched learning opportunities in this introductory course. You can complete this component by participating in research studies (Option 1: Research Participation), by completing 1-page article evaluations from a designated list (Option 2: Article Evaluations), or by a combination of the two options. Thus, you will learn more about psychology by taking part in research studies and/or by reading and evaluating articles from a psychological perspective.

Option 1: Research Participation. Students can complete this course component by creating an account and participating in Departmentally approved research studies at <http://ucalgary.sona-systems.com>. Students earn 0.5% (0.5 credits) for each full 30 minutes of participation. Each study will be followed by an educational debriefing experience. The demand for timeslots may exceed the supply in a given term. Thus, students are not guaranteed that there will be enough studies available to them to meet their credit requirements. Students should seek studies early in the term and should frequently check for open timeslots. **The last day to participate in research and allocate credits is Apr,14 2014.**

Option 2: Article Evaluations. Students can complete this course component by reading and evaluating articles. Students earn 1% (1 credit) for each acceptable evaluation. Students can submit only one evaluation per due date (January 25, February 15, March 8 and March 29). Please consult the Blackboard for this course for more information about this option.

Option 3: Combinations of Options 1 and 2. Students can complete this course component through any combination of Options 1 and 2 (e.g., 3% through Option 1 and 1% through Option 2, or vice versa). Given that each article evaluation counts for 1%, students who complete, for example, 2.5% through Option 1 would need to complete two evaluations to successfully complete all 4% of this course component. As mentioned under Option 2, students can only submit one article evaluation per due date. Thus, students who opt to combine Options 1 and 2 must plan ahead carefully.

Department of Psychology Grade Distribution Policy

The distribution of grades in Psychology courses (the percentage of A grades, B grades, etc.) will be similar to the distribution of grades in other courses in the Faculty of Arts. The Department monitors the grade distributions of 200-, 300-, and 400-level courses in the Faculty to ensure that the grade distributions in Psychology courses are comparable. Based on these reviews, students can expect that up to 30% of grades in 200- and 300-level psychology courses will be “A” grades (A+, A, and A-),

Department of Psychology Criteria for Letter Grades

A+ grade: *Exceptional Performance.* An A+ grade indicates near perfect performance on multiple choice and short answer exams. For research papers/essays/course projects/presentations, an A+ grade is awarded for exceptional work deserving of special recognition and is therefore not a common grade.

A, A- Range: *Excellent Performance.* Superior understanding of course material. Written work is very strong in terms of critical and original thinking, content, organization, and the expression of ideas, and demonstrates student’s thorough knowledge of subject matter.

B Range: *Good Performance.* Above average understanding of course material. Written work shows evidence of critical thinking and attention to organization and editing but could be improved in form and/or content.

C Range: *Satisfactory Performance.* Adequate understanding of course material. Knowledge of basic concepts and terminology is demonstrated. Written work is satisfactory and meets essential requirements but could be improved significantly in form and content. Note: All prerequisites for courses offered by the Faculty of Arts must be met with a minimum grade of C-.

D range: *Marginally meets standards.* Minimal understanding of subject matter. Written work is marginally acceptable and meets basic requirements but requires substantial improvements in form and content. Student has not mastered course material at a level sufficient for advancement into more senior courses in the same or related subjects.

F grade: *Course standards not met.* Inadequate understanding of subject matter. Written work does not meet basic requirements. Student has not demonstrated knowledge of course material at a level sufficient for course credit.

Grading Scale

A+	96-100%	B+	80-84%	C+	67-71%	D+	54-58%
A	90-95%	B	76-79%	C	63-66%	D	50-53%
A-	85-89%	B-	72-75%	C-	59-62%	F	0-49%

As stated in the University Calendar, it is at the instructor's discretion to round off either upward or downward to determine a final grade when the average of term work and final examinations is between two letter grades. To determine final letter grades, **final** percentage grades will be rounded up to the nearest whole percentage (e.g., 89.5% will be rounded up to 90% = A but 89.4% will be rounded down to 89% = A-).

Reappraisal of Grades

A student who feels that a piece of graded term work (e.g., term paper, essay, test) has been unfairly graded, may have the work re-graded as follows. The student shall discuss the work with the instructor within 15 days of being notified about the mark or of the item's return to the class. If not satisfied, the student shall immediately take the matter to the Head of the department offering the course, who will arrange for a reassessment of the work within the next 15 days. The reappraisal of term work may cause the grade to be raised, lowered, or to remain the same. If the student is not satisfied with the decision and wishes to appeal, the student shall address a letter of appeal to the Dean of the faculty offering the course within 15 days of the unfavourable decision. In the letter, the student must clearly and fully state the decision being appealed, the grounds for appeal, and the remedies being sought, along with any special circumstances that warrant an appeal of the reappraisal. The student should include as much written documentation as possible.

Plagiarism and Other Academic Misconduct

Intellectual honesty is the cornerstone of the development and acquisition of knowledge and requires that the contribution of others be acknowledged. Consequently, plagiarism or cheating on any assignment is regarded as an extremely serious academic offense. Plagiarism involves submitting or presenting work in a course as if it were the student's own work done expressly for that particular course when, in fact, it is not. Students should examine sections of the University Calendar that present a Statement of Intellectual honesty and definitions and penalties associated with Plagiarism/Cheating/Other Academic Misconduct.

Academic Accommodation

It is the student's responsibility to request academic accommodations. If you are a student with a documented disability who may require academic accommodation and have not registered with the Disability Resource Centre, please contact their office at 403-220-8237. Students who have not registered with the Disability Resource Centre are not eligible for formal academic accommodation. You are also required to discuss your needs with your instructor no later than 14 days after the start of this course.

Absence From A Test/Exam

Makeup tests/exams are NOT an option without an official University medical excuse (see the University Calendar). A completed Physician/Counselor Statement will be required to confirm absence from a test/exam for health reasons; the student will be required to pay any cost associated with this Statement. Students who miss a test/exam have 48 hours to contact the instructor and to schedule a makeup test/exam. Students who do not schedule a makeup test/exam with the instructor within this 48-hour period forfeit the right to a makeup test/exam. At the instructor's discretion, a makeup test/exam may differ significantly (in form and/or content) from a regularly scheduled test/exam. Except in extenuating circumstances (documented by an official University medical excuse), a makeup test/exam must be written within 2 weeks of the missed test/exam.

Travel During Exams

Consistent with University regulations, students are expected to be available to write scheduled exams at any time during the official December and April examination periods. Requests to write a make-up exam because of conflicting travel plans (e.g., flight bookings) will NOT be considered except under exceptional circumstances. Students are advised to wait until the final examination schedule is posted before making any travel arrangements.

Freedom of Information and Protection of Privacy (FOIP) Act

The FOIP legislation disallows the practice of having student's retrieve tests and assignments from a public place. Therefore, tests and assignments may be returned to students during class/lab, or during office hours, or via the Department Office (Admin 275), or will be made available only for viewing during exam review sessions scheduled by the Department. Tests and assignments will be shredded after one year. Instructors should take care to not link students' names with their grades, UCIDs, or other FOIP-sensitive information.

Evacuation Assembly Point

In case of an emergency evacuation during class, students must gather at the designated assembly point nearest to the classroom. The list of assembly points is found at

<http://www.ucalgary.ca/emergencyplan/assemblypoints>

Please check this website and note the nearest assembly point for this course.

Student Organizations

Psychology students may wish to join the Psychology Undergraduate Students' Association (PSYCHS). They are located in Administration 170 and may be contacted at (403) 220-5567.
